## **Mastercam Completes Acquisition of Cimquest**

March 4, 2024 (Tolland, Conn.) – Sandvik has completed the previously announced acquisition of American company, Cimquest, which will be part of Mastercam, the world’s #1 CAM software. Cimquest is a Mastercam Reseller located in New Jersey, United States.

The acquisition of Cimquest adds talent, technology, and diversity to Mastercam’s ecosystem of solutions, strengthening Mastercam’s commitment to elevating customer experiences through comprehensive customer support. Cimquest’s solutions and services are recognized as best-in-class in their region and will continue to be available. The addition of Cimquest reinforces Mastercam’s commitment to staying closely connected to our customer base.

Mastercam has no plans to change relationships with any external vendors, customers, or Resellers as a result of this acquisition.

Mastercam continues to Shape the Future of Manufacturing. Mastercam is committed to innovation and advancing manufacturing by expanding its software solutions and services within the Mastercam ecosystem through organic growth and acquisitions.

###

### **About Mastercam**

Founded in 1983, Mastercam is headquartered in Tolland, Connecticut. Mastercam is a suite of CAD/CAM software created to reduce production time and expense with efficient machining strategies and advanced toolpath technologies like Accelerated Finishing™ and Dynamic Motion™. Mastercam is the world’s #1 CAM software, with more than 300,000 installations in industries such as moldmaking, automotive, medical, aerospace, consumer products, education, and prototyping. It is distributed through an international channel of authorized Mastercam

Resellers in 75 countries, providing localized sales, training, and support for 2- through 5-axis routing, milling, and turning; 2- and 4-axis wire EDM; 2D and 3D design; surface and solid modeling; artistic relief cutting; and Swiss machining.
