

## **PRESS RELEASE**

# **Mastercam Strengthens Presence in California and the Western United States Through Strategic Acquisition of CAD/CAM Consulting Services**

For Immediate Release  
July 1, 2026

**TOLLAND, CT — July 1, 2026** — Mastercam, the world's leading CAD/CAM software provider and part of the Sandvik Group, today announced the successful close of its strategic acquisition of CAD/CAM Consulting Services, a longtime Mastercam channel partner. With the transaction complete, CAD/CAM Consulting Services is now operating as part of Mastercam, expanding Mastercam's direct presence across California and the Western United States.

This transition combines CAD/CAM Consulting Services' deep regional expertise with Mastercam's global technology leadership, enabling faster response times, more personalized service, and enhanced customer support for manufacturers throughout the region.

"This marks an important milestone for Mastercam and for our customers in the western United States," said Russ Bukowski, President of Mastercam. "By bringing CAD/CAM Consulting Services fully into the Mastercam organization, we are strengthening our local connections while delivering the full power of Mastercam's global resources. Customers will benefit from closer collaboration, faster technical support, and solutions tailored to their regional manufacturing needs."

The move from a channel partner model to direct operations enables Mastercam to provide accelerated problem resolution, customized training programs, and in-region specialists who understand the unique challenges facing manufacturers in California and across the Western United States.

This acquisition supports Mastercam's broader growth strategy of combining innovation with targeted acquisitions to enhance customer experience and service delivery. By expanding its direct presence in key markets, Mastercam continues to strengthen its ability to deliver localized support backed by global expertise.

As part of Sandvik's digital manufacturing portfolio, Mastercam continues to advance connected manufacturing technologies and provide comprehensive support to customers worldwide, helping manufacturers improve productivity, efficiency, and competitiveness.
