

PRESS RELEASE

Mastercam to Showcase Connected Manufacturing Workflows at IMTS 2026

Visitors invited to explore live demonstrations, integrated technologies, and real-world manufacturing solutions at the Mastercam booth

For Immediate Release
August 13, 2026

TOLLAND, CT — September 2026 – Mastercam, a leading CAD/CAM software solution for CNC programming, will demonstrate how connected manufacturing technologies help improve productivity, streamline workflows, and support shop-floor success at IMTS 2026, taking place September 14–19 at McCormick Place in Chicago.

At this year's event, Mastercam will highlight how manufacturers can connect programming, automation, tooling, simulation, inspection, and production processes into a more efficient workflow. Through live demonstrations and customer-focused discussions, attendees will see how digital manufacturing technologies work together to support efficiency, consistency, and operational growth.

"Manufacturers are looking for solutions that help them work smarter and move faster," said Nicolas Le Moigne, Senior VP of Commercial at Mastercam. "At IMTS 2026, we're excited to show how Mastercam fits within a connected manufacturing ecosystem and helps customers transform challenges into opportunities."

Visitors to the Mastercam booth will have opportunities to:

- Experience live machining and automation demonstrations
- Learn about the latest innovations and capabilities available to Mastercam users
- Explore integrated manufacturing workflows from design through production
- Connect with Mastercam experts and industry partners
- Discuss productivity, programming, and manufacturing challenges with experienced professionals

The Mastercam team will also be available throughout the week to meet with customers, prospects, educators, media representatives, industry influencers, and manufacturing professionals interested in learning more about the future of digital manufacturing.

Visit Mastercam at IMTS 2026

Date: September 14–19, 2026

Location: McCormick Place, Chicago

Booth: #133222 in the East Building, Level 3

About Mastercam

Mastercam, part of Sandvik Group, is the world's leading CAD/CAM software for manufacturing, trusted by over 450,000 installations worldwide. Since 1983, we have empowered shops of every size to tackle the toughest machining challenges—from aerospace breakthroughs to life-saving medical components. With relentless innovation, global support, and a commitment to education, Mastercam transforms complexity into confidence. Mastercam: Challenge Accepted.
